Think you don't need Identity Theft Protection? Think Again.

Identity theft is consistently the number one complaint to the Federal Trade Commission. Rampant data breaches, affecting millions upon millions of records, are putting consumers at great risk of identity theft. It can happen to anyone—regardless of your age and income, where you live, or how careful you are.

Restoring your identity on your own can be time-consuming and stressful. After a while, some people give up, potentially leaving them stuck with ruined credit, fraudulent bills, and even criminal records.

Ask us about our identity theft detection and recovery services.

There's only one you.

Let's keep it that way.

Florida Community Bank has partnered with one of the nation's most trusted names in Identity Theft Protection to bring you the most comprehensive Identity Theft Detection and Recovery Services available today. As an evado|PROTECT subscriber, you have access to the following services:

➤ FULLY MANAGED IDENTITY FRAUD RECOVERY

If you suspect identity fraud, or if your personal information becomes compromised, we will assign you a personal Recovery Advocate to complete the recovery work on your behalf, report on progress along the way, and be there for you until your good name is restored—*no matter how long it takes!*

Based on the incident, your Recovery Advocate will:

- Assist in placing fraud alerts at the three major credit bureaus
- Review your credit reports to identify the extent of fraudulent activity
- Remediate fraudulent transactions, false accounts, and/or contracts signed
- Support law enforcement as they work to stop the criminal(s) using your identity
- Follow up with you for 12 months

➤ LOST DOCUMENT REPLACEMENT

If important documents are lost or stolen, you're eligible for Lost Document Replacement. Your Recovery Advocate will work with you to obtain replacements for the missing documentation.

➤ FAMILY COVERAGE

If Family Coverage is elected, Fully Managed Identity Fraud Recovery services extend to cover three generations of your family (3G), including:

- Spouse or domestic partner
- Dependents under age 25 with the same permanent address
- IRS-qualified dependents
- Parents living with you or in elder care
- (nursing home, assisted living, or hospice)

All 3G family members are covered for a full 12 months after death as well—an important benefit as identity thieves target deceased individuals.

➤ CREDENTIAL VAULT

This provides secure online storage of up to 50 credentials, such as credit/debit card numbers, account numbers, license numbers, and more for easy access and retrieval.

➤ CREDIT MONITORING

Alerts of any changes to your credit file which may signal identity theft. We can even send the alerts to you in a text message for ease of use and rapid communication. This service is available to individuals age 18 and older who have a valid credit file.

➤ IDENTITY THEFT EXPENSE REIMBURSEMENT INSURANCE*

Each subscription package includes up to \$1,000,000 of Identity Theft Expense Reimbursement Insurance. This benefit covers out-of-pocket expenses incurred during the recovery of your identity, such as mailing expenses, lost wages, and more.

*Identity theft insurance underwritten by subsidiaries or affiliates of Chartis Inc. The description herein is a summary and intended for informational purposes only and does not include all terms, conditions and exclusions of the policies described. Please refer to the actual policies for terms, conditions, and exclusions of coverage. Coverage may not be available in all jurisdictions.

➤ SCORE TRACKER

Score Tracker provides a monthly indication of credit score and tracks the history of the consumer's credit profile results graphically to make it easy to see improvements or declines in credit worthiness. You can clearly view how your credit score has changed over time and discover why it changed.

➤ INTERNET MONITORING

Internet Monitoring is a proactive tool to detect when your personal information or credentials are exposed in high-risk areas of the internet. This includes black market websites, chat rooms, bulletin boards, and public-facing social network pages.
